PROFESSIONAL SUMMARY

Data Analyst with strong expertise in **Python, SQL, and Machine Learning**, experienced in transforming raw data into actionable insights. Proven ability to build predictive models, perform advanced **EDA**, and create interactive dashboards. Passionate about solving real-world business problems using data-driven approaches.

PRACTICAL EXPERIENCE

Data Analysis & Machine Learning Projects

2025 – Present

- Analyzed datasets using Python & SQL to extract insights and trends
- Performed EDA and preprocessing to improve data quality
- Built ML models for prediction and classification tasks
- Created visualizations to communicate insights effectively

TECHNICAL SKILLS

- **Programming:** Python, SQL
- **Data Analysis:** Data Cleaning, EDA, Statistical Analysis
- **Machine Learning:** Regression, Classification, Model Evaluation
- **Tools & Libraries:** Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn
- **Visualization:** Power BI, Tableau, Excel
- **Version Control:** Git, GitHub

PROJECTS

Customer Churn Prediction (End-to-End ML Project)

Tech: Python, SQL, Scikit-learn

- Built a classification model to predict customer churn with **85% accuracy**
- Performed data cleaning and feature engineering, improving model performance by **20%**
- Applied Logistic Regression & Decision Trees with hyperparameter tuning
- Evaluated performance using confusion matrix, precision, recall, and F1-score
- Delivered insights to identify high-risk customers, improving retention strategy

House Price Prediction (Regression Model)

Tech: Python, Pandas, Scikit-learn

- Developed regression model achieving **R² score of 0.82**
- Applied feature engineering and handled missing values to improve prediction accuracy
- Visualized trends using Matplotlib & Seaborn for stakeholder understanding
- Identified key factors influencing pricing (location, area, amenities)

CERTIFICATIONS

- Databricks Fundamentals for Machine Learning - Simplilearn
- Power BI for Beginners - Simplilearn
- Introduction to Artificial Intelligence - Simplilearn

EDUCATION

M.Sc. Data Science (CGPA: 6.91)

Lovely Professional University | 2025 – Present

B.Sc. Mathematics (CGPA: 6.36)

Munger University | 2019 – 2022

ADDITIONAL STRENGTHS

- Strong problem-solving and analytical thinking
- Ability to translate business problems into data solutions
- Effective communication and storytelling with data
